Subject index

Acidic media
A contribution to the elucidation of the redox mechanism of phenylglyoxal in acidic solutions (Zón, Mellado) 283
Acid solutions
Electrochromism of WO_3 in acid solutions. An electrochemical, optical and electrogravimetric study (De Torresi et al.) 131
ac voltammetry
Electrochemistry of adsorbed flavin adenine dinucleotide in acidic solutions (Kamal et al.) 349
Adsorption processes
Electroanalytical simulations. Part 13. The simulation of adsorption processes at an electrode by orthogonal collocation algorithms (Leverenz, Speiser) 69
Alcohols
Electro-organic reactions on organic electrodes. Part 16. Electrolysis using composite-plated electrodes: V Influence of hydrophobicities of anode, substrate and electrolytic solution on electro-oxidation of alcohols (Kunugi et al.) 321
Alkaline solutions
In-situ infrared spectroscopic study of the anodic oxide film on iron in alkaline solutions (Bewick et al.) 207
Anodic oxide film
In-situ infrared spectroscopic study of the anodic oxide film on iron in alkaline solutions (Bewick et al.) 207
Anthracene
Charge transfer studies of pyrrole copolymers substituted by anthraquinone, phenothiazine or anthracene moieties (Andrieux et al.) 235
Anthraquinone
Charge transfer studies of pyrrole copolymers substituted by anthraquinone, phenothiazine or anthracene moieties (Andrieux et al.) 235
Aqueous electrolyte
An unusual capacitance pit displayed by 4-phenylpyridine adsorbed at the mercury–aqueous electrolyte interface (Thomas, Buess-Herman) 399

Capacitance pit
An unusual capacitance pit displayed by 4-phenylpyridine adsorbed at the mercury–aqueous electrolyte interface (Thomas, Buess-Herman) 399
Carbon dioxide
Electrocatalytic activity of Co^{II} TPP–pyridine complex modified carbon electrode for CO_2 reduction (Atoguchi et al.) 309
Carbon electrode
Electrocatalytic activity of Co^{II} TPP–pyridine complex modified carbon electrode for CO_2 reduction (Atoguchi et al.) 309
Redox properties of cytochrome c_3 from *Desulfovibrio desulfuricans* NCIMB 8372. Effects of electrode materials and sodium chloride (Wang et al.) 291
Carbon monoxide
The influence of cation size upon the infrared spectrum of carbon monoxide adsorbed on platinum electrodes (Anderson, Huang) 335
Catalysis
Electrocatalytic activity of Co^{II} TPP–pyridine complex modified carbon electrode for CO_2 reduction (Atoguchi et al.) 309
Charge transfer
Charge transfer studies of pyrrole copolymers substituted by anthraquinone, phenothiazine or anthracene moieties (Andrieux et al.) 235

Chelates
Electrochemical investigation of dioxygen interaction with two cobalt chelates in solution and at the electrode surface (Costa et al.) 183
Chloride ions
Redox properties of cytochrome c_3 from *Desulfovibrio desulfuricans* NCIMB 8372. Effects of electrode materials and sodium chloride (Wang et al.) 291
Chronoamperometry
The wall-jet electrode Potential step chronoamperometry (Fisher et al.) 53
Cobalt
Electrochemical investigation of dioxygen interaction with two cobalt chelates in solution and at the electrode surface (Costa et al.) 183
Electrocatalytic activity of Co^{II} TPP–pyridine complex modified carbon electrode for CO_2 reduction (Atoguchi et al.) 309
Collocation algorithms
Electroanalytical simulations. Part 13. The simulation of adsorption processes at an electrode by orthogonal collocation algorithms (Leverenz, Speiser) 69
Composite-plated electrodes
Electro-organic reactions on organic electrodes. Part 16. Electrolysis using composite-plated electrodes: V Influence of hydrophobicities of anode, substrate and electrolytic solution on electro-oxidation of alcohols (Kunugi et al.) 321
Conducting substrate
Tin(IV) oxide grafted on a silica gel surface as a conducting substrate base for cupric hexacyanoferrate (Zaldivar et al.) 247
Conductometry
Conductometric analysis of the second acid dissociation constant of H_2S in highly concentrated aqueous media (Licht et al.) 111
Copper
Tin(IV) oxide grafted on a silica gel surface as a conducting substrate base for cupric hexacyanoferrate (Zaldivar et al.) 247
Copper films
Electrochemical and surface spectroscopic investigation of copper(111) films on ruthenium(0001) (Zavadil et al.) 223
Coverage
Electron transfer through monolayers. Dependence of current on potential and coverage (Mishra et al.) 387
Cyclic voltammetry
Electrochemistry of adsorbed flavin adenine dinucleotide in acidic solutions (Kamal et al.) 349
Cytochrome c_3
Redox properties of cytochrome c_3 from *Desulfovibrio desulfuricans* NCIMB 8372. Effects of electrode materials and sodium chloride (Wang et al.) 291

Deposition
Dynamic film rigidity observations during electrochemical deposition of polybithiophene films (Glidle et al.) 411
Desulfovibrio desulfuricans
Redox properties of cytochrome c_3 from *Desulfovibrio desulfuricans* NCIMB 8372. Effects of electrode materials and sodium chloride (Wang et al.) 291
Dimerizing species
Electrochemical generation and detection of transient intermediates. Dimerizing species (Andrieux et al.) 369
Disulphide compounds
An enhanced redox process of disulfide compounds at polyaniline film electrode (Naoi et al.) 395

Electrocapillary measurements
The electrical double-layer structure in KPF_6 methanol + acetone mixtures (Muszalska, Jastrzebska) 145
Electrochromism
Electrochromism of WO_3 in acid solutions. An electrochemical, optical and electrogravimetric study (De Torresi et al.) 131
Electrode/electrolyte interface
A Monte Carlo study of intermolecular electrostatic interactions at the electrode/electrolyte interface (Lamperski) 39
Electrogenerated chemiluminescence
Electrogenerated chemiluminescence. Part 54. Electrogenerated chemiluminescence of ruthenium(II) 4,4′-diphenyl-2,2′-bipyridine and ruthenium(II) 4,7-diphenyl-1,10-phenanthroline systems in aqueous and acetonitrile solutions (McCord, Bard) 91
Electrogravimetry
Electrochromism of WO_3 in acid solutions.

An electrochemical, optical and electrogravimetric study (De Torresi et al.) 131
Electron transfer
Electron transfer through monolayers. Dependence of current on potential and coverage (Mishra et al.) 387
Electropolymerization
Electropolymerization of pyrrole on a tantalum electrode (Yamamoto et al.) 171
Electrostatic interactions
A Monte Carlo study of intermolecular electrostatic interactions at the electrode/electrolyte interface (Lamperski) 39
Emersion
Raman spectroscopy of the emersed Ag|alcohol electrochemical interface (Pemberton, Sobocinski) 157

FAD
Electrochemistry of adsorbed flavin adenine dinucleotide in acidic solutions (Kamal et al.) 349
Formaldehyde
Anodic oxidation of formaldehyde on a dropping mercury electrode in alkaline solutions (Vaškelis, Norkus) 373
Fourier transform
Application of a Fourier transform method to the resolution enhancement of adsorption peaks in differential pulse polarography (Pižeta et al.) 25
Fractal geometry
Quantification of the mass-transfer mode (Vieil) 61

Gold
The potential-dependent reorientation of adsorbed thiopyridine at a gold electrode in phosphate buffer (Christensen et al.) 407
Adsorption on stepped surfaces of platinum and gold single crystals (Parsons, Ritzoulis) 1

Hexacyanoferrate ion
Tin(IV) oxide grafted on a silica gel surface as a conducting substrate base for cupric hexacyanoferrate (Zaldivar et al.) 247
Hydrophobicity
Electro-organic reactions on organic electrodes. Part 16. Electrolysis using composite-plated electrodes: V Influence of hydrophobicities of anode, substrate and electrolytic solution on electro-oxidation of alcohols (Kunugi et al.) 321

Impedance studies
Impedance studies of liquid/liquid interfaces. Part I. Instrumentation (Olphert et al.) 255
Infrared spectroscopy
In-situ infrared spectroscopic study of the anodic oxide film on iron in alkaline solutions (Bewick et al.) 207
Instrumentation
Impedance studies of liquid/liquid interfaces. Part I. Instrumentation (Olphert et al.) 255
Iodine
The kinetics of silver electrodeposition on iodine-covered Pt(111) (Gibson et al.) 271
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379
Ion transfer
Assisted ion transfer at micro-ITIES supported at the tip of micropipettes (Shao et al.) 101
Iridium
Quartz crystal microbalance measurements during oxidation/reduction of hydrous Ir oxide electrodes (Birss et al.) 327
Iron
In-situ infrared spectroscopic study of the anodic oxide film on iron in alkaline solutions (Bewick et al.) 207
IR spectroscopy
The influence of cation size upon the infrared spectrum of carbon monoxide adsorbed on platinum electrodes (Anderson, Huang) 335

Kinetics
The kinetics of silver electrodeposition on iodine-covered Pt(111) (Gibson et al.) 271
KPF_6
The electrical double-layer structure in KPF_6 methanol + acetone mixtures

Liquid/liquid interfaces
Impedance studies of liquid/liquid interfaces. Part I. Instrumentation (Olphert et al.) 255

Mass transfer
Quantification of the mass-transfer mode (Vieil) 61
Mercury
An unusual capacitance pit displayed by 4-phenylpyridine adsorbed at the mercury–aqueous electrolyte interface (Thomas, Buess-Herman) 399
Mercury electrodes
Electrochemistry of adsorbed flavin adenine dinucleotide in acidic solutions (Kamal et al.) 349
Micro-ITIES
Assisted ion transfer at micro-ITIES supported at the tip of micropipettes (Shao et al.) 101
Micropipette
Assisted ion transfer at micro-ITIES supported at the tip of micropipettes (Shao et al.) 101
Modified electrodes
An enhanced redox process of disulfide compounds at polyaniline film electrode (Naoi et al.) 395
Monolayers
Electron transfer through monolayers. Dependence of current on potential and coverage (Mishra et al.) 387
Monte Carlo study
A Monte Carlo study of intermolecular electrostatic interactions at the electrode/electrolyte interface (Lamperski) 39

Optical study
Electrochromism of WO_3 in acid solutions. An electrochemical, optical and electrogravimetric study (De Torresi et al.) 131
Ordered monolayers
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379
Organic electrodes
Electro-organic reactions on organic electrodes. Part 16. Electrolysis using composite-plated electrodes: V Influence of hydrophobicities of anode, substrate and electrolytic solution on electro-oxidation of alcohols (Kunugi et al.) 321
Orthogonal collocation algorithms
Electroanalytical simulations. Part 13. The simulation of adsorption processes at an electrode by orthogonal collocation algorithms (Leverenz, Speiser) 69
Oxidation
Electro-organic reactions on organic electrodes. Part 16. Electrolysis using composite-plated electrodes: V Influence of hydrophobicities of anode, substrate and electrolytic solution on electro-oxidation of alcohols (Kunugi et al.) 321
Anodic oxidation of formaldehyde on a dropping mercury electrode in alkaline solutions (Vaškelis, Norkus) 373
Oxidation/reduction
Quartz crystal microbalance measurements during oxidation/reduction of hydrous Ir oxide electrodes (Birss et al.) 327
Oxide film
In-situ infrared spectroscopic study of the anodic oxide film on iron in alkaline solutions (Bewick et al.) 207
Oxygen
Electrochemical investigation of dioxygen interaction with two cobalt chelates in solution and at the electrode surface (Costa et al.) 183

Phase transition
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379
Phenothiazine
Charge transfer studies of pyrrole copolymers substituted by anthraquinone, phenothiazine or anthracene moieties (Andrieux et al.) 235
Phenylglyoxal
A contribution to the elucidation of the redox mechanism of phenylglyoxal in acidic solutions (Zón, Mellado) 283
Phenylpyridine
An unusual capacitance pit displayed by 4-phenylpyridine adsorbed at the mercury–aqueous electrolyte interface (Thomas, Buess-Herman) 399
Phosphate buffer
The potential-dependent reorientation of adsorbed thiopyridine at a gold electrode in phosphate buffer (Christensen et al.) 407

Platinum
Adsorption on stepped surfaces of platinum and gold single crystals (Parsons, Ritzoulis) 1
The kinetics of silver electrodeposition on iodine-covered Pt(111) (Gibson et al.) 271
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379
Platinum electrodes
The influence of cation size upon the infrared spectrum of carbon monoxide adsorbed on platinum electrodes (Anderson, Huang) 335
Polarography
Application of a Fourier transform method to the resolution enhancement of adsorption peaks in differential pulse polarography (Pižeta et al.) 25
Polyaniline
An enhanced redox process of disulfide compounds at polyaniline film electrode (Naoi et al.) 395
Polymerization
Electropolymerization of pyrrole on a tantalum electrode (Yamamoto et al.) 171
Potential
Electron transfer through monolayers. Dependence of current on potential and coverage (Mishra et al.) 387
Potential step chronoamperometry
The wall-jet electrode Potential step chronoamperometry (Fisher et al.) 53
Potentiostats
Impedance studies of liquid/liquid interfaces. Part I. Instrumentation (Olphert et al.) 255
Pyridine
An unusual capacitance pit displayed by 4-phenylpyridine adsorbed at the mercury–aqueous electrolyte interface (Thomas, Buess-Herman) 399
The potential-dependent reorientation of adsorbed thiopyridine at a gold electrode in phosphate buffer (Christensen et al.) 407
Pyrrole
Electropolymerization of pyrrole on a tantalum electrode (Yamamoto et al.) 171
Charge transfer studies of pyrrole copolymers substituted by anthraquinone, phenothiazine or anthracene moieties (Andrieux et al.) 235
Quartz crystal microbalance
Quartz crystal microbalance measurements during oxidation/reduction of hydrous Ir oxide electrodes (Birss et al.) 327
Raman spectroscopy
Raman spectroscopy of the emersed Ag|alcohol electrochemical interface (Pemberton, Sobocinski) 157
Redox
A contribution to the elucidation of the redox mechanism of phenylglyoxal in acidic solutions (Zón, Mellado) 283
Redox properties of cytochrome c_3 from *Desulfovibrio desulfuricans* NCIMB 8372. Effects of electrode materials and sodium chloride (Wang et al.) 291
Reorientations
The potential-dependent reorientation of adsorbed thiopyridine at a gold electrode in phosphate buffer (Christensen et al.) 407
Resolution enhancement
Application of a Fourier transform method to the resolution enhancement of adsorption peaks in differential pulse polarography (Pižeta et al.) 25
Rigidity
Dynamic film rigidity observations during electrochemical deposition of polybithiophene films (Glidle et al.) 411
Ruthenium
Electrochemical and surface spectroscopic investigation of copper(111) films on ruthenium(0001) (Zavadil et al.) 223
Ruthenium bipyridine systems
Electrogenerated chemiluminescence. Part 54. Electrogenerated chemiluminescence of ruthenium(II) 4,4′-diphenyl-2,2′-bipyridine and ruthenium(II) 4,7-diphenyl-1,10-phenanthroline systems in aqueous and acetonitrile solutions (McCord, Bard) 91
Second harmonic generation
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379
Silica gel
Tin(IV) oxide grafted on a silica gel surface as a conducting substrate base for cupric hexacyanoferrate (Zaldivar et al.) 247
Silver|alcohol interfaces
Raman spectroscopy of the emersed Ag|al-

cohol electrochemical interface (Pemberton, Sobocinski) 157
Silver electrodeposition
The kinetics of silver electrodeposition on iodine-covered Pt(111) (Gibson et al.) 271
Silver electrodes
Raman spectroscopy of the emersed Ag|alcohol electrochemical interface (Pemberton, Sobocinski) 157
Simulations
Electroanalytical simulations. Part 13. The simulation of adsorption processes at an electrode by orthogonal collocation algorithms (Leverenz, Speiser) 69
Single crystals
Adsorption on stepped surfaces of platinum and gold single crystals (Parsons, Ritzoulis) 1
Sodium
Redox properties of cytochrome c_3 from *Desulfovibrio desulfuricans* NCIMB 8372. Effects of electrode materials and sodium chloride (Wang et al.) 291
Spectroscopic probes
Electrochemical and surface spectroscopic investigation of copper(111) films on ruthenium(0001) (Zavadil et al.) 223
Spectroscopy
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379
Stepped surfaces
Adsorption on stepped surfaces of platinum and gold single crystals (Parsons, Ritzoulis) 1
Sulphide thermodynamics
Conductometric analysis of the second acid dissociation constant of H_2S in highly concentrated aqueous media (Licht et al.) 111
Surfaces
Surface phase transition of ordered iodine monolayers on a Pt(111) electrode as studied by normal incidence optical second harmonic generation (Lynch, Corn) 379

Tantalum
Electropolymerization of pyrrole on a tantalum electrode (Yamamoto et al.) 171
Thiophene films
Dynamic film rigidity observations during electrochemical deposition of polybithiophene films (Glidle et al.) 411
Thiopyridine
The potential-dependent reorientation of adsorbed thiopyridine at a gold electrode in phosphate buffer (Christensen et al.) 407
Tin
Tin(IV) oxide grafted on a silica gel surface as a conducting substrate base for cupric hexacyanoferrate (Zaldivar et al.) 247
TPP–pyridine
Electrocatalytic activity of Co^{II} TPP–pyridine complex modified carbon electrode for CO_2 reduction (Atoguchi et al.) 309
Transient intermediates
Electrochemical generation and detection of transient intermediates. Dimerizing species (Andrieux et al.) 369
Tungsten
Electrochromism of WO_3 in acid solutions. An electrochemical, optical and electrogravimetric study (De Torresi et al.) 131

Wall-jet electrode
The wall-jet electrode Potential step chronoamperometry (Fisher et al.) 53
